The Cisco® Catalyst® ESS9300 Embedded Series Switch is built for secure, high-bandwidth networking and is optimized for size, weight, and power to operate in extreme environments.

Product overview

The Cisco Catalyst ESS9300 Embedded Switch Series revolutionizes Cisco's embedded networking portfolio with high-speed and security capabilities. The 10GE switch is optimized to meet specialized form-factor, ruggedization, port density, and power needs of many applications requiring customization and complements Cisco's off-the-shelf Industrial Ethernet switching portfolio.

The small-form-factor, board configuration options, and optimized power consumption provide Cisco partners and integrators the flexibility to design custom solutions for defense, oil and gas, transportation, mining, and other industries. With its zeroization, secure boot, and physical alarm relay capabilities, the embedded switch has the crucial security features needed to protect networks from cyber and physical threats. The ESS9300 runs the trusted and feature-rich Cisco IOS® XE Software, allowing Cisco partners and integrators to offer their customers the familiar Cisco IOS Command-Line Interface (CLI) and management experience on their ESS9300-based solutions. Additionally, Cisco IOS® XE Software also offers a powerful graphical management interface that is built-in, called WebUI, for an even more enhanced user experience.

Figure 1.
ESS9300

The ESS9300 is a ruggedized 10G embedded platform designed for embedded applications for tactical, outdoor, and mobile installations requiring low power, small size, and ruggedization. Its features include:

- Single board
- Small form-factor board size (110 x 85 mm; 4.3 x 3.3 in.).
- 10 ports of 10G: Enhanced Small Form-Factor Pluggable (SFP+).
- Ethernet management port (optional).
- RS-232 and USB console.
- Common +3.3VDC and +5VDC power inputs.
- Advanced next-generation Cisco IOS XE software.
- Low power – 35W (typical).

Primary features

Feature	Benefit
10G links	Enables high-quality video and data communications for the next generation of bandwidth-intensive use cases such as tactical data centers, HD video surveillance, self-driving vehicles, and future-readiness.
Robust industrial design	Small form factor packing 10G allows integrators to pack higher port density into a compact form factor and build custom solutions that can withstand harsh environments (temperature range of -40° to 85° C, -40° to 185° F).
Security	Enterprise-grade Cisco IOS XE switching security features help ensure highly secure voice, video, and data communications. Secure boot and Cisco Anti-counterfeit technology ensure authenticity for both hardware and software. Zeroization is a feature that is important to the defense and government intelligence communities to ensure that network access and security credentials are not compromised by theft of hardware. Alarm relay contacts can also be used to ensure physical integrity of the device enclosure.
Manageability	Facilitates easy deployment and rapid configuration with easy-to-use Web UI and familiar Cisco CLI.
Layer 2 switching	Enables third-party integrators to offer rich enterprise-grade Layer 2 switching feature set to end customers.
Quality of service	Allows customers to prioritize flows and helps ensure that mission-critical flows are not affected by low-priority traffic.

Hardware specifications

Description	Specification
Interfaces	10 ports of 10G /1G (approved SFP+/SFPs), 1 management port of 10/100/1000BASE-T RS-232 and USB console
Memory	4 GB DDR4 DRAM 8 GB onboard eMMC flash storage (2.5 GB usable space)
Power supply	3.3VDC and +5VDC (+/-3%)
Power consumption	35W (typical)
Connectors	SEARAY Connector Series from SAMTEC: <ul style="list-style-type: none"> • SEAF-20-05.0-S-06-2-A-K 120-pin (J1) • SEAF-40-05.0-S-06-2-A-K 240-pin (J2)
Dimensions (W x D)	ESS-9300-10X-E: 110 x 85 mm (4.3 x 3.3 in.)
Weight	ESS-9300-10X-E: 88 g (3.1 oz)

Scale specifications

Network Essentials	Description
MAC addresses	16,000
VLAN IDs	1000
Internet Group Management Protocol (IGMP) groups	1000
Number of Spanning Tree Protocol (STP) instances	128

Software features

Network Essentials License	Description
Layer 2 switching	IEEE 802.1Q VLAN Trunking, 802.1W Spanning Tree Rapid Reconfiguration, 802.1ab LLDP (Link Layer Discovery Protocol), 802.1s - Multiple Spanning Tree Protocol (MSTP) Standard Compliance, 802.1s VLAN Multiple Spanning Trees, 802.1Q Tunneling, 802.3 standard, Unidirectional Link Detection (UDLD), Cisco Discovery Protocol, unicast MAC filter, VLAN Trunk Protocol (VTP) v2 and v3, EtherChannel, voice VLAN, Per-VLAN Spanning Tree Plus (PVST+), and Rapid STP (RSTP)
Multicast	IGMPv1, v2, v3 snooping, IGMP filtering, IGMP querier
Management	Web UI, MIB, SmartPort, Simple Network Management Protocol (SNMP), syslog, Dynamic Host Configuration Protocol (DHCP) server, Switched Port Analyzer (SPAN) session (1), Full Flexible NetFlow (FnF), Network Time Protocol (NTP)
Security	Zeroization, secure boot, port security, IEEE 802.1X, DHCP snooping, dynamic Address Resolution Protocol (ARP) inspection, IP Source Guard, private VLAN. MAC authentication bypass, 802.1X multidomain authentication, storm control - unicast, multicast, broadcast, Secure Copy (SCP), Secure Shell (SSH), SNMPv3, TACACS+, RADIUS server/client, MAC address notification, Bridge Protocol Data Unit (BPDU) guard, hardware physical alarm inputs (2), and relay output (1)
Quality of service (QoS)	Ingress policing, rate limit, egress queuing/shaping, auto QoS
Layer 2 IPv6	IPv6 host support, HTTP over IPv6, SNMP over IPv6

Network Advantage License	Description
Security	MACsec-256

Environmental specifications

Specification	Description
Industrial-grade board component temperature	-40° to 85°C (-40° to 185°F) component local ambient temperature specification
Operating temperature	-40° to 85°C (-40° to 185°F). Temperature range of a completed solution depends on the thermal design characteristics of the enclosure used by the system integrator
Storage temperature	-40° to 85°C (-40° to 185°F)
Operating altitude	4.572 km (15,000 ft) -40° to 74°C (-40° to 165°F) 12.2 km (40,000 ft) -40° to 25°C (-40° to 77°F)
Nonoperating altitude	12.2 km (40,000 ft)
Mean Time Between Failures (MTBF)	ESS9300 Ground, fixed, controlled: 48.2 years

Ordering information

The ESS 9300 is available in the following configurations:

Product ID	Product description
ESS-9300-10X-E	ESS9300 board, no cooling plate, Network Essentials software
ESS9300-NW-A=	Cisco Network Advantage license for ESS9300 Series Spare

Warranty information

The ESS9300 has a 1-year Limited Hardware Warranty.

Further warranty information for the ESS9300 switch is available at <https://www.ciscoservicefinder.com/warrantyfinder.aspx>.

Product sustainability

Information about Cisco's Environmental, Social and Governance (ESG) initiatives and performance is provided in Cisco's CSR and sustainability [reporting](#).

Cisco and partner services

At Cisco, we're committed to minimizing our customers' TCO, and we offer a wide range of services programs to accelerate customer success. Our innovative programs are delivered through a unique combination of people, processes, tools, and partners, resulting in high levels of customer satisfaction. Cisco Services helps you protect your network investment, optimize network operations, and prepare your network for new applications to extend network intelligence and the power of your business. Some of the primary benefits our customers can get from Cisco Services include:

- Mitigating risks by enabling proactive or expedited problem resolution.
- Lowering TCO by taking advantage of Cisco expertise and knowledge.
- Minimizing network downtime.
- Supplementing your existing support staff so they can focus on additional productive activities.

For more information about Cisco Services, refer to Cisco Technical Support Services or Cisco Advanced Services at <https://www.cisco.com/web/services/>.

Cisco Capital

Flexible payment solutions to help you achieve your objectives

Cisco Capital® makes it easier to get the right technology to achieve your objectives, enable business transformation, and stay competitive. We can help you reduce the total cost of ownership, conserve capital, and accelerate growth. In more than 100 countries, our flexible payment solutions can help you acquire hardware, software, services, and complementary third-party equipment in easy, predictable payments. [Learn more](#).
